Iterative Solver vs. KLU Models

Legend:
- Iterative solver is faster than KLU (red dot)
- KLU is faster than Iterative solver (green dot)
- Both are equally fast (blue dot)
- Iterative solver failed completely to integrate the model (green diamond)
- KLU failed completely to integrate the model (red diamond)
- Both failed to integrate the model (blue diamond)

KLU simulation time [ms] (y-axis)
Iterative solver simulation time [ms] (x-axis)

Percentages:
- 34.34 % (red)
- 63.86 % (green)
- 0.0 % (blue)
- 1.2 % (green diamond)
- 0.6 % (red diamond)
- 0.0 % (blue diamond)
